### School Policy

Digital technologies have become integral to the lives of children and young people, both within Schools and outside School. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Children and young people should have an entitlement to safe internet access at all times.

#### **This Acceptable Use Policy is intended to ensure:**

- that children and young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that School systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The School will try to ensure that girls will have good access to digital technologies to enhance their learning and will, in return, expect the girls to agree to be responsible users.

### School Policy

Digital technologies have become integral to the lives of children and young people, both within Schools and outside School. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Children and young people should have an entitlement to safe internet access at all times.

#### **This Acceptable Use Policy is intended to ensure:**

- that your daughter will learn to be a responsible user and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that School systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents are aware of the importance of e-safety and are involved in the education and guidance of their daughter with regard to their on-line behaviour.

The School will try to ensure that girls have good access to digital technologies to enhance their learning and will, in return, expect the girls to agree to be responsible users.

A copy of the Student Acceptable Use Policy is attached to this permission form, so that parents will be aware of the School expectations of the children in their care. Your daughter has gone through this form and signed it with her teacher in class.

Parents are requested to sign the permission form below to show their support of the School in this important aspect of the School's work:

Parent Name

Student Name

Tutor Group

As the parent of the above student, I give permission for my daughter to have access to the internet and to ICT systems at School.

I know that my daughter has signed an Acceptable Use Agreement and has received, or will receive, e-safety education to help them understand the importance of safe use of technology and the internet – both in and out of School.

I understand that the School will take every reasonable precaution, including monitoring and filtering systems, to ensure that girls will be safe when they use the internet and ICT systems. I also understand that the School cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my daughter's activity on the ICT systems will be monitored and that the School will contact me if they have concerns about any possible breaches of the Acceptable Use Policy.

I will encourage my daughter to adopt safe use of the internet and digital technologies at home and will inform the School if I have concerns over my child's e-safety.
